INT. LIVING ROOM SITTING IN A DISCORD CALL -- 3 A.M.

SOMEHOWOKAE

Sonic Frontiers is out and I want to pass this class. I have my friend Syigo here, we have ten Sonic games we're giving rated in a tier list.

ROSS

Sup, I'm Syigo or Ross. I don't have classes with Kae, I just like Sonic.

SOMEHOWOKAE pulling up tier list template

SOMEHOWOKAE

If you know about tier list, feel free to skip to this part of the video. If not, it's simple. I say a game, I put in on the tier list where I see fit. S tier is the best, F tier is the worse. A, B, C, D tier are the shit in between. We'll also add a Too Long, Didn't Listen list for those who didn't listen because the explanation. Get it, got it? No point in skipping because that explanation was so short but informative? Good. Begin.

CUT TO:

INT. GAMEPLAY - SONIC ADVENTURE

Play It Doesn't Matter very loudly and distort the gameplay to incite great gameplay before ROSS starts talking about it.

Once he starts, play Emerald Coast Zone in the background while he talks about the game.

ROSS

*insert his rank and explains his reasons for why*  
TL;DL, here's a visual explanation why for those who are masochists.

SOMEHOWOKAE

I know a few masochists, in fact I'm in a rela--

CUT TO:

INT. GAMEPLAY - SONIC ADVENTURE 2

Play Live and Learn, exaggerate gameplay of just City Escape just to prove a point.

Play Chao Garden OST while talking about the game.

SOMEHOWOKAE

Let's be honest, the only level most of us remember from this game is City Escape. *stop the music and zoom in on the gameplay* And maybe the Chao Garden. But that just casual shit. Beautiful. A tier.

ROSS

The blantant disrespect to Pumpkin Hill??? Excuse me?  
*insert his rank and explains his reasons for why*  
TL;DL, here's a visual description for the audibly impaired.

CUT TO:

INT. GAMEPLAY - SONIC HEROES

Play Sonic Heroes and distort the glitchy gameplay and music.

Play Seaside Hill in the background.

SOMEHOWOKAE

This game is good because of the soundtrack, visuals, and storyline. That's it.  
The gameplay is glitchy as fuck and very erratic and unresponsive. C tier.  
Here's a TL;DL for those who like glitchy games and controls.

CUT TO:

INT. GAMEPLAY - SONIC THE HEDGEHOG (SONIC 06)

Play His World and distort the music and just play a montage of glitches within the game and zoom in the gameplay.

ROSS

S tier.

CUT TO:

INT. GAMEPLAY - SONIC UNLEASHED

Play Endless Possibilites and show gameplay and distort the gameplay and music.

Play Endless Possibilites NateWantsToBattle Edition while talking about the game.

SOMEHOWOKAE

This is the BEST SONIC GAME EVER.  
Come at me pussies. This game is  
slept on, underrated. Disrespected.  
Misunderstood. Shunned. Outcasted.  
Disregarded. Beautiful. Gorgeous,  
better than sex. Better than ending  
world hunger. Better than my girl--  
*stops the music abruptly* okay, not  
that good. *resumes music* But this  
game is it. This shit mean something  
to me mane. The gameplay, the  
soundtrack, the story, the visuals.  
Am I watching a fucking movie? It's  
so good man, and it came out in 2008  
for crying out loud, it's such a  
good--

ROSS

Are you sure it's not nostagia  
because you are pushing 23 and the  
game came out 14 years ago?

Silence.

SOMEHOWOKAE

Swallow my utters.  
S tier.  
Here's my TL;DL, deabte me.

CUT TO:

INT. GAMEPLAY - SONIC COLORS/COLORS ULTIMATE

Play Reach For The Stars and show gameplay of the game.

Play Reach For The Starts Ultimate Edition while talking  
about the game.

SOMEHOWOKAE

Sonic Colors did what Unleashed  
couldn't do at the time of its  
release. Mainly due to 06 being the  
godly game that it was, it was  
soiled by with some much hate and  
controversy. But Sonic Colors was a  
step in the right direction for  
Sonic. The soundtrack, gameplay,  
story were lighthearted and awesome  
enough to make even 06 lovers jump  
for joy at this game.  
Then Sonic said Baldy McNoseHair and  
then the game went to shit and then  
everyone died and Eggman build  
Terminalmanland 420.69, the end.  
S tier.

SOMEHOWOKAE (CONT'D)

Here's my TL;DR, side note.. Colors had a DS version and an Ultimate Version. The DS version is like the Rush games, so B tier. Ultimate is game the original Wii version with added remixes and comestic. S tier. And yes, I bought the digital deluxe edition. I'm uppity.

CUT TO:

INT. GAMEPLAY - SONIC GENERATIONS

Play the opening soundtrack and distort the intro and music.

ROSS

If nostalgia was a game for Sonic fans, this is it.  
insert Ross's rank  
Enough said.  
TL;DL, you heathens. Goated game though.

CUT TO:

INT. GAMEPLAY - SONIC LOST WORLD

Play Frozen Factory Act 2 gameplay and the opening soundtrack and distort the music

Play Windy Hill Zone Act 1 when talking about the game.

SOMEHOWOKAE

You know the old saying, "If it ain't broke, don't fix it"? Yeah, that shit wasn't applied to this game. We went ten steps forward with Colors and then 11 steps back with Lost World. Like what? The soundtrack was good, the tension in the story was... anyway. Tails getting in his feelings like a Gen Z kid made me cringe, not gonna lie. But Sonic not listening and ruining shit trying to be Long John Silver didn't help either.  
C Tier

Fade to black, then suddenly come back

SOMEHOWOKAE

Also, WHY WAS THERE A FUCKING RUN BUTTON?  
I should drop the rating just for  
(MORE)

SOMEHOWOKAE (CONT'D)  
 that slick shit, SEGA.  
 You lucky I liked Silent Forest Zone  
 2's music.  
 TL;DL, who those enjoyed the run  
 button mechanic.

CUT TO:

INT. GAMEPLAY - SONIC FORCES

Play Sonic Forces gameplay and distort the music and  
 gameplay.

SOMEHOWOKAE  
 This game is shit and I got it for  
 free. Also, Classic Sonic.. again.  
 Milking Classic Sonic like  
 Activision milks the Modern Warfare  
 series.  
 F Tier  
 Rebellion storyline in a Sonic game?  
 Really? Cringe.  
 TS;DL, for those in who think  
 Metropolis Zone should've been  
 longer than a minute and a half.

CUT TO:

INT. GAMEPLAY - SONIC FRONTIERS

Play gameplay and opening music for the game.

Play one of the stage OST's and show gameplay of the game  
 while Ross talks about the game.

ROSS  
 This game is what Lost World and  
 Forces SHOULD'VE done back in 2013  
 and 2017. Not even gonna mention  
 Sonic Boom: Rise of Lyric. Not even  
 worth the air we breathe, such a  
 shit game.  
*insert Ross's rant and has fanboy  
 explanation of the game*  
 TL;DL, for those who think Rise of  
 Lyric is a better game than  
 Frontiers.

Show the tier list.

SOMEHOWOKAE  
 Hopefully, SEGA will apply the ain't  
 broke, don't fix mentality to the  
 next Sonic game. But then again,  
 it's SEGA. I'm not sure what to  
 (MORE)

SOMEHOWOKAE (CONT'D)  
expect from them. But hopefully,  
it's not shit.  
Sonic 06 is better than Frontiers,  
goodbye.
